It was annoying for me to have some loose cables at the arms of the Røde PSA1.

So I designed this, to enclose and Mount the microphone cable at both armparts.

It has a nice and tight fit and holds onto the arms without any tape or so.

I attached 2 Models, one with 200mm length and one with 300mm length, both should fit.

My printer has some issues in the moment so I printed it upwards, thus the length of the one one in picture is not quite 200mm because it then lost adhesion.
