Designed to fit hex wrenches from 5 to 1.5

The hooks are seperated for a faster and easier printing. They fit tight in the recess of the holder.

I hope you like it :)

Print Settings

Printer:

Creality CR-10

Rafts:

No

Supports:

Yes

Resolution:

0.2

Infill:

15-50%

Notes:

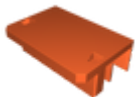

For the holder you can use 15% infill maybe less.
I recommend to print the hooks with 50% infill. Otherwise they could be too weak.
