Its a 3d printed lamp fitting lid for a ikea (and others) mason jar. It can hold the e14 and e27 standard fittings. Print the one you need.

The openscad file is a eye ball fit one (sorry).

### Instructions

Buy a ikea mason jar (others should work btw) <http://www.ikea.com/us/en/catalog/products/90227985/>

Print a lid

Remove the lid from the mason jar and fit it with the new one.

Insert a fitting (E14 or E27) HEMMA ikea will work <http://www.ikea.com/gb/en/catalog/products/00067854/>

Add a low power lamp (ideal are LED lamps but no more then 11Watts otherwise it will get to hot)

Close the lid ;-)

Turn on the light, marvel at your creation !!
