This is a two screw Kingman Spyder Compact 2000 detent holder. It may fit multiple models of Spyder. I hope this helps fix an older marker. I print it rotated 180 degrees so the top looks better. And use supports touching the build plate. Let me know if it's useful.

Sorry the pics stink 500k limit. Version 9 has the detent shifted to the front screw to more match the detent slot.
