Summary

This model can hold a candle on your cake. It is shaped like a cake as well.

This model holds a candle so you don't have to make a hole in your lovely cake. Stick a candle in the middle of the mini cake. Light the candle and enjoy. For clean up just remove the candle and wash the mini cake. I used this many times.

Printer Settings:

I used a Creality Ender 3

No supports needed

20% infill

0.2mm layer height

0.4mm nozzle
