Kitchen knife stand to organise cutting knife and keep blades away from drawer front

Modular design to extend as wide as needed

Tabs on bottom snap into next module - may need to adjust clearance depending on printer tuning

I trimmed the tab on the last module flush to neaten shape up

I screwed onto a plywood base treated with Osmo oil, but should work without

Print Settings

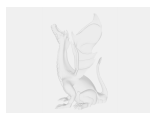

Layer height: 0.2mm

Filament Length: 2.76m/module

Nozzle: 0.4mm

Infill: 20%
