This is a floating shelf with 3 mounts for R-Pi 4B's. It should also fit the PoE+ HAT as it fits the official dual fan aluminium case. M4 sized screw holes in the bracket, bracket inserts fully into the shelf. Top of shelf has a small recess to prevent things from rolling off.

25cm long. About 10cm deep. Should be printable on any large bed.

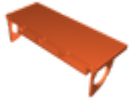

UPDATE - added gcode for MK3S+ bed at 90% scale to fit.
