### Summary

A fix for Quest 2 elite strap breaking.

[Gadgets](#) > [Other Gadgets](#)

Tags: [vr](#) [oculusquest2](#) [elitestrap](#) [quest2](#)

To use it. insert one side of the broken strap halfway into the 3d printed patch. then put some super glue from the other side and then insert the second part of the strap fast and make sure its all in. You can use a flashlight to shine through it to see if the straps are close together or not.

Print with a brim so it doesn't release from the buildplate while its printing. And maybe a bit higher temp to make it stronger.
