updated 15. 5. 2022 | published 15. 5. 2022

### Summary

A suppressor that replaces the front outer barrel. Has a standard pic rail. Doesn't function as a suppressor. Looks cool

[airsoftsuppressor](#)

I printed with 10% infill on esun black PLA+. yet to be field tested but it feels solid. Rail is flush with the handguard.

Designed for WE, to test just print the test file.

Have fun :)
