Summary

A mount for the Wyze v2 camera, designed to mount unto the Ultimate Prusa Casing.

Remix of the following Wyze v2 camera mount, plus a little tinkering with the existing camera mount options for the Ultimate Prusa Casing mod.

The files are labeled with numbers corresponding to how long the posts are. I found #3 to be a great fit, but there are shorter and longer options available.

Supports ARE needed. Print in the default orientation.
