[Gadgets](#) > [Photo & Video](#)

Quick and simple webcam and/or camera cover. I designed this for larger apertures and thicker applications like on an iMac or an external camera like a Logitech C920/930... but would also work on a laptop.

Simple print, uses less than 2g of filament... done here with Overture PLA+, 0.4mm Revo 6 nozzle, 0.2mm layer height, no supports, 15% infill.
