Print Settings

Printer Brand:

Prusa

Printer:

I3 MK3S

Rafts:

No

Supports:

Yes

Resolution:

.15mm

Infill:

15%

Filament: AmazonBasics, Prusa, Taulman3D PLA (except for the Saber blade which was PETG (red) and T-Glass (blue)). Black, Purple, Red and/or Blue

Notes:

Supports were used for most parts (except top ring, which I printed upside down). I used Prusa Slicer 2.0 Support Enforcers and Blockers to ensure the supports were optimal.

The blades were printed using "Vase" mode and the diameter slightly reduced to fit snugly into the base. Category: Decor
