Summary

A simple yet decorative pendant lamp inspired by a scandinavian design and adapted for printing on a Prusa Mini(+).

23.35 hrs

1 pcs

0.25 mm

0.40 mm

PLA

338 g

Prusa MINI /
MINI+

[Household](#) > [Home Decor](#)

I came up with the idea for this lamp while planning the lighting of our newly build home. I was inspired by the "Pilke" lamps by Showroom Finland but unfortunately they were way beyond my remaining budget. So I adapted the concept to just(!) fit on the build plate of my beloved Prusa Mini+. Just use an IKEA Hemma Socket, screw in a LED bulb and you are good to go.

The name is derived from the swedish Saint Lucy's Day, a festivity around light.

I printed three of these out of Prusament Jet Black PLA in 0.25mm layers with the standard 0.4mm nozzle.
