## Summary

A simple printable Toy Clock for learning time. For some reason, it's much easier for kids to grasp a large toy like thi

[Learning](#) > [Physics & Astronomy](#)

I made this for my daughter as she had a problem grasping the idea of the 24 hour clock. After a few days practicing with this, she now knows time quite well.

Print the parts in any color you like and fasten with a 3mm screw and nut.
