updated 15. 5. 2022 | published 15. 5. 2022

## Summary

Stretchlet with an undulating pattern. Made to print with Ninjabflex filament & two shells.

Tags: [bracelet](#) [stretchy](#) [stretchlet](#)

Slice without top/bottom and with no fill. Set shell thickness to twice of your nozzle size, so for 0.4mm Nozzle, use 0.8mm thickness. As seen in the pictures - it's stretchy enough to use as an emergency hairband as well without loosing it's shape.
