A simple clay stamp (could be used as a cookie cutter as well, I suppose) for making clay coasters with the Ley Line rune drawn by black mages in the critically-acclaimed MMORPG Final Fantasy XIV Online (now with an expanded free trial!). Roll a slab of clay (or dough) and press. The stamp itself does not cut the clay, so you will need to a tool to trace the circle. The supplied model will make a stamp 10 cm in diameter, and the gcode will make a stamp 11 cm in diameter, but if your clay shrinks significantly on firing, consider scaling up to get the desired size.

Coffee served on this coaster will increase productivity, wakefulness, and sleep-delay by 15%. May increase the chances of Coffee Spill AoE tank buster in the immediate area.

No supports or rafts needed.
