Summary

An improvement on my older exhaust vent

7.88 hrs

1 pcs

0.25 mm

0.40 mm

PET

118 g

Prusa MINI /
MINI+

[Household](#) > [Other House Equipment](#)

I found that my previous version could be improved, so I designed a better one. It fits the tube more snugly and is a lot less wide, so your window is opened less. You can print it on 0.25 layer height and without supports. I also added the corresponding plates to cover up the rest of the window. I advise to glue them on.
