Summary

A holder to safely wash bottles in the dishwasher.

[Household](#) > [Kitchen](#)

Tags: [bottle](#) [cleaning](#) [dishwasher](#) [sodastream](#)

A holder to safely wash bottles in the dishwasher.

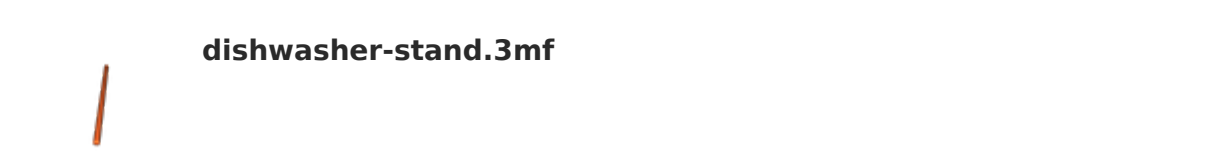

length: 29cm

inner diameter: 6mm

I chose to print it with 100% infill and PETG

Attention: Check the maximum temperature of your washing machine and choose a filament that has a much higher glass transition temperature than your washing machine can heat up.
