Simple and elegant wall-mounted game box holder. It should work for any blueray type box, but I have tried it only with PS4 boxes, so you can let me know in the comments. M2/M3 screws secure it with a rounded head. Holds up to 10 games. You can easily modify it for more/fewer games or for other types of screws.

I recommend printing it with a more robust material (PLA, ASA). I tried printing it with Prusament PETG, but it flexed a lot, so I reprinted it with Prusament PLA.

If you have any issues, message me or leave a comment. If you like the model, please consider leaving feedback.
