---

This is just the front half of a Gameboy color cartridge. This will be updated when the second half is finished.

This is the start of my dual battery GB cartridge that allows Two 2025 to be used so that batteries can be swapped safely without risking saved games.

## Print Settings

### Printer Brand:

Prusa

### Printer:

I3 MK3S

### Rafts:

No

### Supports:

No

### Resolution:

.2 mm

**Infill:**

doesn't matter

**Filament:** doesn't matter PLA white

**Notes:**

Printed at .2mm PLA with no supports. Printing time ~40 minutes. It should come out solid in your slicer given how thin the walls are.

Category: Games
