First of all, to thank Jonathan67b for inspiring me with his design for a deck holder.

This three holders are designed to stack on eachother and fit inside the original box. You can fit the entire game + kickstarter expansion with sleeved cards inside 3 of them. The sleeves I used are Ultrapro Pro-fit clear, and since they make tue cards quite slippery it was a mess everytime I had to put the decks on the table.

In this design you can use the holders for your game sessions and for secured transportation.

To fit everything in the box: place the 3 decks into it's own holder. Divide the character cards and the eternal items in two and place each half into

the monster and treasure decks. Place the box diagonally and put the three deck holders, leaving the loot deck on top. Now, place the coin-dice bag inside the smaller cardboard box included with the game, you can place this box on top of the holders. Now put the instructions on top and close the box. Now you are ready to go with the game without fearing to open it and finding a mess with your cards.

The 91x66mm version that can fit bigger sleeves and is tougher than the previous one, but doesn't fit inside the original box.

Made with Autocad

Print Settings

Rafts:

Doesn't Matter

Supports:

Yes

Resolution:

0.2

Infill:

40%

Notes:

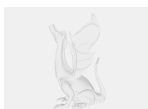

May need a little bit on sanding on the inside.
