Tags: [toy](#) [desk](#) [officechair](#)

Something to print with your last 0.6m of filament and a bit of construction fun (desk toy).

The more you print the more things you can make.

0.2mm Layer, 20% infill, no support, no raft.

If the bricks do not slide and fit together, try scaling the model in your slicer Scale just the X and Y axis not Z.

Models shown are a phone holder (obvious) a bird (you have to use your imagination :-)) and a tower (this will keep growing and growing, not more throwing away the last meter :-)) or more).
