Noticed there was a lack of Halo skull files around, so I decided to make one and share it. I'll be adding campaign symbol cut-outs upon request. Thanks to the Halo Archive for extracting and providing the model this skull was based off.

I've also provided a WIP of the completed icons so far in .svg format if anyone needs them.

Like the skulls but don't have a printer? You can get fully finished skulls below! <https://www.etsy.com/au/listing/1157337867/halo-campaign-skulls-custom-3d-printed>

Thank you to cjlee89 who noticed that the skulls may not be scaled correctly. Don't know how this happened, but if the scale seems waaay to small, try setting it at 50,000%. Ultimately what scale you print it at is up to you, but this gives the intended default size.
