I havent printed this model yet and If you decided to print please share your feedback on the model.

This sword is design for Gundam with the 1/144 scale and it fits the 30 Minute Mission/Sister Model Kit and as well the AMAIM Warrior/Kyoukai Senki Model Kit (Only the 1/72 scale).

The size of the handle is 2 x 3.5 mm

Total length of the sword is 110mm

The sword is based on the artwork I found on pixiv (<https://www.pixiv.net/en/artworks/90222542>)

I try to recreate in Fusion 360.

I will provide the STEP file incase you wanna edit the model or scale it to your model size.

Please don't sell my model without my knowledge.

Thank you : >

Have a good day
