## API Master Test Kit Cap Holder

I like to keep the caps off the test tubes when I put the kit away but got annoyed with fishing the caps out of the bottom of the kit all the time.

It fits over the center hanger as the lid does. When the lid is on it holds the caps on the holder. The holder rings are hollow to allow for the caps to dry.

## Print Settings

### Printer Brand:

Creality

### Printer:

Ender 3 Pro

**Rafts:**

No

**Supports:**

Yes

**Resolution:**

0.2

**Infill:**

15

**Filament:** Any PLA Any

Category: Pets
