This is based on the John Deere 7930 Loader and is not compatible with either piece of the Bruder part (42000 Front loader arm 1-B14), but it is a replacement. Both parts will need to be replaced. It is compatible with all other parts of the loader.

I've needed to design and replace most of the parts of the JD Loader, most parts are shared between the 2. You print a full loader using the parts below.
