Since Printables can't import Thingiverse remix sources (yet):
This is a remix of the following model(s): <https://www.thingiverse.com/thing:4163951> and <https://www.thingiverse.com/thing:4940274>.

Since the original files by IrishCyborg were not scaled properly, not exported properly and broken up into way too many pieces, I've combined all left/right parts and scaled them to the proper size.

I've also split the front blades into individual pieces for easier printing.

V2: added the combined spiked wrecking ball from Edwin Dijkshoorn's version.
