updated 18. 5. 2022 | published 17. 5. 2022

### Summary

Since my filament kept sliding out of the loop due to my high retraction, I decided to modify it and move the opening..

Since Printables can't import Thingiverse remix sources (yet):

This is a remix of the following model(s): <https://www.thingiverse.com/thing:2917932>

Since my filament kept sliding out of the loop due to my high retraction, I decided to modify it and move the opening in the loop to the other side.

I use this 2020 connector, since the longer extrusions make it sturdier: <https://www.thingiverse.com/thing:2994822>.
