Summary

Replace the 2 HDD mounts with 4 2.5 inch SSDs.

[Hobby & Makers](#) > [Electronics](#)

I made this part in 2017 to be able to mount 4 2.5 inch SSD's in the 2 HDD slots of my supermicro 500 series rack mount case. I have a bunch of these servers and replacing the hard drives with SSDs breathes new life into them. I don't know if this will work for yours, but it works well with what I have.

Model files

2017-supermicro-raid-bracket-v2.stl

☐ This bolts to the server chassis with the hard drive screws

2017-supermicro-hard-drive-bracket-v2.stl

☐ Use 4 of these to mount hard drives. They nest.
