You can use this to allow a Rockford/Fosgate 8 inch subwoofer driver to fit into a 2017/2018 Audi Q7, replacing the BOSE driver.

The upgraded driver is under \$80 and weights twice as much as the BOSE unit, and has more travel.

Note that the BOSE driver is 2 ohms, so wire the new one to also be 2 ohms.

It needed M4x40mm screws and washers. Note that the model is just half the ring. If you have someone print this for you, you need two of them.
