Summary

The stock spool holder for the Fokoos Odin 5 is way too short. This one is not.

The stock spool holder for the Fokoos Odin 5 is way too short. This one is not.

I printed it in Protopasta Carbon Fiber PETG, with 50% infill. This design has a screw and nut to hold it onto the stock Fokoos bracket.

I found a file on Thingiverse for the base, then made it bigger. <https://www.thingiverse.com/thing:4932059>
