Key covers in 3 versions

- Round bow with 23 millimeters diameter
- Round bow with 24 millimeters diameter
- Rectangle bow

Use 0.25 mm nozzle for bests labels. You can use all materials, but one cover must be from one kind.

I prepared some labels, ready to print. But. I now, you can need own labels. I share original free covers f3d files.

Use free cover, set zero bottom, top layers and some interesting infill should look nice, but I has not free key to try it.
