Note! This is for the wireless version of the Connexion mouse with the square base.

This is a mashup of a similar base for the wired mouse. I added the base from a storage case for the wireless mouse.

I did this on Tinkercad. The source is public so you can tweak it if you want.

<https://www.tinkercad.com/things/0NES0DGUU4f>

If I were going to print it again I would make the mouse holder thinner so the USB clearance wasn't so tight.

Print Settings

Printer Brand:

Creality

Printer:

CR10S PRO

Rafts:

No

Supports:

Yes

Resolution:

.02

Infill:

20%

Filament: PLA yellow

Notes:

I printed with Cura tree supports for the USB cable holes. It would probably print fine without them.

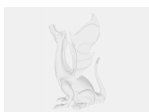

Category: Tool Holders & Boxes
