Summary

Replacement for drawer corner brackets of RealSpace (Office Depot) desks. Will likely fit many other brands

I have two desks both from Office Depot, that are both the RealSpace brand. The plastic L bracket that holds the drawer face to the sides are rather brittle. I've seen this exact same design on other brands of Chinese made desks

This redesign has a thick bevel on the inner edge where the original ones are weak.

Recommend printing standing up with 100% infill. Use painted on snug supports only on the pegs.

Have posted STL and a fusion360 file incase you need to make slight edits for your own desk.
