Summary

Wall mount for EGO 765 Leaf Blower

[Household](#) > [Outdoor & Garden](#)

Tags: [leafblower](#) [wallmount](#)

These are for the EGO Leaf Blower 765 CFM model # LB7654. Mount them to the wall and hang up your blower when you are done!

I printed the base flat with some supports under the tab edge.

Just added another nozzle bracket. I didn't realize how far from the wall the nozzle would be when it is hanging on the mount. Extended version is long enough. If you want to use the shorter one, you will need it spaced out about 2.5 inches.
