[Toys & Games](#) > [Outdoor Toys](#)

This is a simple replacement for the stock black foregrip that comes with the Nerf Halo MA40 blaster. Simply remove the three screws holding the stock foregrip in place, retain them, then install the two halves from these files and screw them in place with the screws you held onto. This will give you a bottom, left, and right side standard Picatinny rail, allowing you to attach flashlights, foregrips, bipods, or blasters such as the Little Rocket or Mistresskey.

Update: 5/15 Hotfix

Hotfix for the part, finally got it printed and this is draft #1 of corrections to it's fit.

Update 5/16 Hotfix

Another hotfix, minor dimensional corrections.

Update 5/17 Hotfix

Hopefully final hotfix, final version Soon!

Update 5/18 Hotfix

As soon as i receive confirmation, this will be the final version and the listing will be updated accordingly.

Update 5/17/2022 - Out of WIP, Final design

This has been confirmed to work and is stable and secure.
