Its a Remix from AKinferno remix :) you find the original on Thingi ID 5383489.

The original comes from WheatlyLaboratories Axolotl and McGybeer's "Articulated Lizard" and the head comes from "Schlossbauer" Axolotl.

We painted it in PrusaSlicer and print it on the Mosaic Palette 3 pro. We just love it and want to share it with you! We scaled z up to 150% because the original was to flat :)

Cheers Benni
