I noticed there's nothing like this on Printables so I upload my remix of spricvector's design (https://www.thingiverse.com/thing:2213031), which is also a remix of FactoryStandard's original model (https://www.thingiverse.com/thing:2108142). Big credits to these guys.

I simply removed the “chain length gauge” text to make it print a little bit faster and to look cleaner. I modeled it from an imported stl, so the file is a bit of a mess, but it should print cleanly.

How to use this kind of tool:

https://assets.onbuy.com/i30/product/59bb4b516e1c404f83ec740f11a795a5-l10565297/tagvo-2-in-1-bike-chain-toolchain-checker-universal-bicycle-chain-repair-tool-with-chain-wear-indicator-tool-4142501.jpg

The difference here is that the side with “good to go” is supposed to fall between links even if the chain is in good condition
