

Vegeta Bust with Base

Redux

[VIEW IN BROWSER](#)

updated 17. 11. 2023 | published 17. 11. 2023

Summary

This is a Bust of Vegeta with a cool base, which also says DragonBall Z, gives the print more stability and fits well!

How I printed it:

0.12 Layerheight (The Model is really detailed)

40% Cubic Infill

Make overhangs printable in **CURA**

No Supports needed (If you **really want supports**, then id recommend to support the **Chin** and to use Tree-Supports)

Printed in **Giantarm Marble PLA** on my **Creality CR-6 SE**, with the Community Firmware and sliced in **CURA**.

Would be cool, if you guys could **like** and also **post a make** of your Vegeta Bust!

Happy printing!

This remix is based on
