Self watering bulb for planters. Just fill it with water and stick in soil.

Comes in 100ml, 200ml and 300 ml versions

If the bulb is getting empty too soon for your liking, try covering the opening with a bit of soil and then sticking it in the planter as deep as possible.

Print Settings

- **Rafts:** Doesn't Matter
- **Supports:** Not necessary
- **Resolution:** 0.2 - 0,28 with 0.2 being ideal for a watertight print
