My friend's daughter likes cocker spaniels and he asked me to print one for her. I found one on thingiverse (<https://www.thingiverse.com/thing:2859943>), but it had some block between the legs so I decided to remove it in meshmixer. My sculpting skills are not great, but somehow I managed to get to state that I was happy with, and I hope you will be too ;).

Printing: I printed it with supports under the chin, ears and belly, but maybe it is not necessary.
