A very small tripod suitable for mobile phone, with or without a case. Will work with most cell phones, as long as they're not too thick or too heavy. Consists of four parts: Tiny Links (you'll need to print at least 15 to duplicate the picture), Tiny Holder (print one), Tiny Tripod (print one) and (optionally) Tiny Base, for additional stability. The Tiny Tripod connects all the parts: they snap together.

The Tiny Links are useful for other creative fastening projects. They click together to make a round chain that can be gently flexed into necklaces or decorative ropes.

Print instructions Category: Mobile Phone Print Settings

Printer Brand: Prusa

Printer: i3 Mk3S

Rafts: Yes

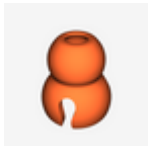

Supports: Yes

Infill: 20%

Notes:

Prints in PETG, PLA or ABS.
