Summary

This is the second of three small flower pots I made for my plants.

This is the second of three small flower pots I made for my plants.
Print it with **enough wall lines and top layers** to get it **waterproof**.

The pot has an inner diameter of **60mm** and has the same depth.
Furthermore, I added a solid version to print in **vase mode** and one with a 3mm thick wall!

There are three different designs, this one is the third. The following links will take you to the other two designs.

Blocky Planter #1 (left)

Blocky Planter #2 (mid)

Blocky Planter #3 (right)

If you like check out **my other designs** too!
