This is an updated version of my CCG card box. It now features a magnetic latch. The pivot plates are gone, and the lids now just click into place.

Requires a pair of 10Ø x 3mm magnets.

You can also purchase the .stl files for a 70mm, 100 card commander style deck box featuring my latest design from my Etsy store. This version doesn't require any supports and has all the latest tweaks to make it easier to print.

Update: 28/06/19 - updated lids with a bit of extra clearance. Should fit sleeves up to 94mm tall now (just). Also included the detent mechanism to hold the box open.
