Its a complete battle ship game, which can be broken down into pieces for printing and storage. Whole thing fits into a large stone wheat thins box. Lots of very small pieces so not good for small children.

Print instructions

You would need to print:

- 4 x battle-ship_board (I colour coded but they are interchangeable)
- 2 x left-arm
- 2 x right-arm
- 2 x Left-Tray
- 2 x Right-Tray
- 4 x Miss-Marker
- 1 x Hit-Markers
- 2 x Navy
- 20 x peg

Ships were designed to print on standard Prusa MK3 nozzle, at 0.05 mm layer height, and the rest prints well at 0.2 mm. A pair of "pegs fit into the

bottom of each ship and are glued in place. Both markers and pegs required a brim.
