One week after the initial release of the terrain generator, I published a big update. Many more options came in, like full buildings with all 4 sides (previously, only a corner ruin was possible). To give you some more buildings, I created some more "full" styled buildings for you to use with your tabletop games. Enjoy!

These files are available for commercial use for several of my patreon levels, check the below link for more info.

If you want to have buildings of individual size, make sure to become a patron here and use my new terrain generator with the recently published terrain library: <https://www.patreon.com/Udos3DWorld>

If you want to see how to use the terrain generator, check out the youtube video: https://youtu.be/XWfQ_n-VyW8

You want terrain pieces but don't own a 3D printer? I also offer comparable parts on my etsy shop: <https://www.etsy.com/Udos3DWorld/listing/1236672352/ruined-scifigothic-wargaming-terrain>
