This model is a remix of popular model of battery storage from CAD-Guy.

Thanks to this modification you can use each of the beer crate for combination of AA, AAA, 9V and CR2032 batteries (not specifically 1 crate for only 1 type of battery) **and you store your batteries more effectively.**

You can choose between the following variants:

- 3xAA + 8xAAA + 1x9V + 3xCR2032
- 8xAA + 5xAAA + 2xCR2032
- 4xAA + 5xAAA + 2x9V
- 6xAA + 8xAAA + 2x2032
- 6xAA + 4xAAA + 1x9V + 2xCR2032

This remix is completely compatible with the original model - the bottom is the same and also universal, so you can glue it on every of these modification (it's stackable).

No supports needed.

Enjoy!
