Summary

28mm wargaming terrain. 3 story building that prints in 6 parts. FDM friendly.

3 story ruined building corner. It prints in 6 parts and is easy to glue together. I printed it at 20% cubic infill and with normal supports. Can easily be done in 2 prints on a standard sized print bed. I can't find where I originally got the models but I wanted to share them here. I am not the original designer.
