A simple strap mount for the Monoprice Amp/DAC. It's designed for #7-3/4" screws.

The Fusion 360 file should be parameterized fairly well for adjustments for different screws, or really, any type of rectangular thing you want to mount. The chamfers on the inside of the mount would probably need to be removed for other things, they're designed as extruded triangles so I could match the length of the chamfer on the amp/DAC exactly.

Print Settings

Printer:

SV01

Rafts:

No

Supports:

Yes

Resolution:

0.2

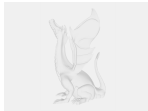

Filament: IIIDMax PLA+ Black

Notes:

Probably want a few more walls than normal to make sure the screw mounting places are strong
