A simple magnet-design of the iconic roadrunner - meep meep!

This is a remix of “Road Runner stencil” by [Long Quang](https://www.thingiverse.com/thing:3450299) (<https://www.thingiverse.com/thing:3450299>) under the creative commons license **Attribution 4.0 International (CC BY 4.0)** - <https://creativecommons.org/licenses/by/4.0/>

I've inverted the model, slightly adapted it to have connected parts everywhere and smoothed it a bit.

The normal model includes 4 holes for putting magnets in (designed for 6x2 mm ones, with little padding) - i've added a second one without any wholes for customisation purposes.
